Forschungspraktikum Wirtschaftsinformatik – Sommersemester 2026

Student 1

Name:Joé Welsch
Matrikelnummer: 1526418

Student 2

Name: Van Bao Nguyen
Matrikelnummer: 1707619

We hereby declare that we have written this thesis independently and have not used any sources or aids other than those specified. All direct or indirect content and ideas from external sources are acknowledged as references. We confirm that we have not previously submitted this thesis in part or whole for any other academic credit nor has the work been submitted to any other examination office and has not been published.

We confirm that we have only used text or other content-generating aids based on generative artificial intelligence (GenAI) in the manner permitted in writing by the examiner and that we have explicitly marked GenAI-generated passages.

When using GenAI tools, we have indicated these with their product name and listed them in full in an appendix.

We are fully responsible for any GenAI-generated passages and content we have used in our work.

Thesis title: Impacts of Infrastructure Outages and Cascading Effects on Critical Facility Accessibility: A Case Study of Trier

Programme: Forschungspraktikum - Wirtschaftsinformatik (SoSe 2026)

Examiner: Berndt, Jan Ole, Dr.-Ing. and Timm, Ingo J., Univ.-Prof. Dr.

This is an achievement for a:

- ☐ Bachelor's thesis
- ☐ Master's thesis
- ☒ other examination achievement for module (term paper etc.)
